ALGEMEEN – BELANGRIJK OM WETEN

- **Toners** worden normaal gezien **automatisch** opgestuurd.
- Zorg ervoor dat uw toestel **ten allen tijde** is **ingeschakeld**. Anders kan de machine niet worden uitgelezen en kan de automatische aanvulling worden verstoord.
- De toestellen zijn voorzien op een continue in dienst schakeling en verbruiken een **absoluut minimum** aan energie.
- Er kunnen steeds extra **reserve** toners worden besteld via het e-service portaal (zie helpdesk website).
- Waste bottles worden **niet** automatisch geleverd. Deze dient u zelf **tijdig** te bestellen via het e-service portaal (zie helpdesk website).
- Het **type nietjes hangt af van het type finisher**. Dit staat duidelijk vermeld bij elk type.
- Er is steeds een **verschil** tussen nietjes **mét cartridge** en uitsluitend een pakket nietjes **zonder cartridge** (de refill variant).
- In principe is er origineel steeds een cartridge aanwezig en hoeft u geen extra cartridge te bestellen. In het geval van een refill, moet u wel de originele cartridge hergebruiken en manueel opvullen.
